ABOUT US

MABAS is an international company founded in Türkiye in 2012, specializing in innovative cash handling solutions for the banking sector. We design and manufacture reliable banknote banding and strapping machines, cash deposit safes, and consumables for bank automation. All MABAS products comply with international standards and are engineered to perform in the most demanding environments. With a global distributor network, our solutions are trusted by customers in over 50 countries worldwide. MABAS stands for ease of use, proven reliability, and a strong sense of responsibility toward business and society.

Driven by engineering precision and continuous innovation, MABAS develops technologies focused on improving operational efficiency, reducing manual workload, and ensuring stable cash processing operations. Our solutions are designed to support banks and financial institutions in optimizing daily processes while maintaining high standards of accuracy, security, and reliability.

With in-house production capabilities and practical industry expertise, MABAS delivers scalable and dependable solutions tailored to the evolving needs of modern banking environments. Every product is developed with a focus on long-term performance, ease of integration, and uninterrupted operation in high-volume cash handling processes.

MABAS BANK AUTOMATION SOLUTIONS

MABAS I-BANDER

High-speed banknote banding machine

MABAS I-Bander delivers high-speed, reliable strapping for banknotes and small bundles. Compact design and seamless integration with counting machines make it ideal for high-volume cash handling environments. Equipped with an inkjet printer and automatic pack ejection, it combines speed, accuracy, and convenience in one solution.

Specifications:

Banding speed: up to 15 cycles per minute

Capacity: holds up to 200 banknotes

Tape width: 40 mm

Tape length: 120 m or more

Tape type: PE-coated paper

Printer: Inkjet

Key Advantages

- Banding and printing in one world-class device
- Automatic pack ejection for smooth operation
- Compact and reliable design
- Supports PE-coated paper tape
- Easy integration with counting machines

ADVANTAGES OF MABAS

- Manufacturer with 15 years of experience
- Global distributor network in over 50 countries
- In-house production of equipment
- Compliance with international quality and safety standards
- Reliable and stable equipment performance

WHY CHOOSE MABAS

- Trusted solutions for banks and financial institutions
- Ease of use
- Proven technology
- Optimal price–quality ratio
